

The Airdrop Site is a website located at [<https://app.ariaprotocol.xyz/airdrop>] (the “*Site*”) where you can use a noncustodial wallet to claim your \$ARIAIP token (the “*Token*,” and the claim referred to as the “*Airdrop*”). The Token represents a cryptographic unit of value on the Aria Protocol, a decentralized blockchain-based protocol tokenizing rights to real world intellectual property assets on chain (the “*Protocol*”). The Tokens available to claim via the Site are provided by Aria Foundation (the “*Foundation*”). Your use of the Site, the Token and the Protocol is entirely at your own risk.

The Site, the Token and the Protocol are available on an “as is” basis without warranties of any kind, either express or implied, from the Foundation or anyone else, including, but not limited to, warranties of merchantability, title, fitness for a particular purpose and non-infringement.

You assume all risks associated with using the Site, the Token and the Protocol and digital assets and decentralized systems generally, including but not limited to, that: (a) digital assets are highly volatile; (b) using digital assets is inherently risky due to both features of such assets and the potential unauthorized acts of third parties; (c) you may not have ready access to digital assets; and (d) you may lose some or all of your tokens or other digital assets. You agree that you will have no recourse against the Foundation or anyone else for any losses due to the use of the Site, the Token and the Protocol. For example, these losses may arise from or relate to: (i) incorrect information; (ii) software or network failures; (iii) corrupted digital wallet files; (iv) unauthorized access; (v) errors, mistakes, or inaccuracies; or (vi) third-party activities.

This Site and the Airdrop are not available to residents of Cuba, Iran, North Korea, Belarus or Russia; to residents of the United Kingdom; to residents of the Crimea, Luhansk, Donetsk, Zaporizhzhia or Kherson regions of Ukraine; or to residents of any other jurisdiction in which accessing or using the Site, the Token or the Protocol is prohibited (collectively, the “*Prohibited Jurisdictions*”).

By using or accessing this Site, the Token or the Protocol and any related smart contracts, you represent, warrant and covenant that you are not and will not be located in, incorporated or established in, or a citizen or resident of the Prohibited Jurisdictions. You also represent and warrant that you are not subject to sanctions or otherwise designated on any list of prohibited or restricted parties or excluded or denied persons, including but not limited to the lists maintained by the United States’ Department of Treasury’s Office of Foreign Assets Control, the United Nations Security Council, the European Union or its Member States, or any other government authority (a “*Prohibited Person*”). You further covenant that you will not use or access the Site, the Token or the Protocol on behalf of someone who is located in, incorporated or established in, or a citizen or resident of the Prohibited Jurisdictions nor a Prohibited Person.
